

## Sex drive

The 18 year old Ian Lafferty is fighting himself through the last years at high school. At the same time he's being tortured by his older brother, and outclassed by his 14 years old younger brother on the romantic planet and humiliated on his donut-job on the gallery.

But Ians biggest problem is that he soon starts college and still is a virgin. He is determined to change this, and to his help he has Wingman Lance.

After a total fiasco with his dreamgirl and "best friend" Felicia Ian searches the internet for a date. And he finds Ms Tasty, a freaking hot blonde that wants him direct. But there is a problem he must drive 80 miles from Chicago to Knoxville to complete the deal.

Ian comes to Knoxville there he meets Ms Tasty, and they got together and she wants him to have sex with her but Ian is really in love with Felicia and Felicia is in love with him. Later on Ms Tasty has a guy with her and her only reason to meet Ian is that she wants to steal his things. Ms Tasty and her partner has done that to many other people.
